IMPORTANT .- Those who have attained to the greatest eminence in the science of Medicine, and who have by a life-long study of, and cxperience with the human organism, obtained great insight into the origin and pathology of disease, are yet, not withstanding all their profound and learned theories, confessedly groping in the dark as to the first cause of any and all diseases that affeet our race. But this much has been clearly elucidated, and is beome an anxium with the learned profession, that by far the greatest aumber of our ailments are directly traceable o derangement of the digestive luuction, and if "good digestion wait on appetite," health will be almost uniform. Acting upon this axiom, the inventor of Dr. Hurley's Celebrated Stomach Bitters has been eminently successful judgare constantly pouring in upon him through the mails and press, in preing from the many testimonials that paring a remedy to meet and "nip in bud" all this long list of obscure and distressing derangments that render "life scarce worth the living." We are glad to learn that the public there are begining to appreciate these Bitters upon their intrinsic merits, and that they can be had every-
